

Absolutely The Best Crane Mats In The World.

This document is stored and available in the Raptor Tech Technical Document Repository.

To help our customers understand certain critical data points that factor into purchasing crane mats, Raptor Tech maintains a repository of technical documents with data from all major crane manufacturers.

You can visit Raptor Tech's repository to get crane specifications and technical details for crane models in addition to this model at:

<https://library.steelcranemats.com>

Thank You for Visiting the [SteelCraneMats.com](https://library.steelcranemats.com) Technical Specifications Document Repository.

GMK4080-2

Product Guide

ASME B30.5
Imperial 85%

Features

- 80 t (88 USt) capacity
- 51 m (167 ft) six-section main boom
- 8,7 m - 15 m (28.5 ft - 49.2 ft) swingaway extension
- 6 m (19.7 ft) boom extension
- Single-engine concept design
- MAXbase variable outrigger positioning

GROVE GMK4080-2

Compact and Strong: With high capacities and industry-leading compact dimensions, the GMK4080-2 allows you to secure more jobs than ever before.

Features

> Industry-leading compact dimensions

The minimum width of the GMK4080-2 is 2,55 m (8.4 ft) with 14.00 R25 tires and 2,75 m (9 ft) with 16.00 R25 tires. With an overall length of 12,68 m (41.6 ft) and a narrow tail swing of only 3,5 m (11.6 ft) this is one of the most compact cranes in its class making it easy to work in confined job sites.

> MAXbase Variable Outrigger Positioning

MAXbase provides increased flexibility on the job site by allowing asymmetrical outrigger spans. This makes it easier to work in congested jobsites with obstructions and allows for increased capacities.

> Single-engine concept

The new single engine concept on the GMK4080-2 with the latest EUROMOT 4/Tier 4 final engine reduces fuel consumption to a minimum. Using the ECO mode, the GMK4080-2 is the most fuel efficient crane in its class.

> CraneSTAR is an exclusive and innovative crane asset management system

Helps improve your profitability and reduce costs by remotely monitoring critical crane data. Visit www.cranestar.com for more information.

Jobsite benefits

- Access narrow jobsites and utilize a more compact radius to gain a better position for lift performance. The GMK4080-2's compact size and MAXbase variable outrigger positioning system provides excellent job site flexibility unmatched in the market.
- Human Machine Interface (HMI) allows for control of the MEGATRAK™ suspension system from both sides of the carrier allowing for adjustment of ground clearance independent of the outriggers. The GMK4080-2 can also be equipped with an outrigger pad load indicator with visibility on both sides of the carrier or from the operators cab.
- MEGATRAK™ independent suspension, all-wheel steering system and steer by wire technology provides increased ground clearance, adjustable suspension and reduces tire-wear to provide maximum maneuverability in all-terrains.

Manitowoc Crane Care when you need it.

The assurance of the world's most advanced crane service and support to get you back to work fast.

Manitowoc Finance helps you get right to work generating profits for your business.

Financial tools that help you capitalize on opportunity with solutions that fit your needs.

The lifting capacities correspond to ASME B30.5

The lifting capacities likewise fulfill the requirements of ISO 4305 with regard to stability.

The lifting capacities are given in pounds x 1000.

Lifting capacity = Payload + weight of hook block and suspending device.

The lifting capacities for the main boom only apply with the jib dismantled.

Lifting capacities greater than 130,000 lb require additional equipment.

Lifting capacities greater than 165,000 lb require special equipment.

The right is reserved to modify the load-carrying capacities.

Note: The details in this brochure serve only as general information. The determinant values for the operation of the crane are the lifting capacity tables belonging to it and the operating instructions.

Lifting capacities are indicated by boom length for different levels of extension. The actual boom length will be in accordance with the selected configuration for boom extension.

Specifications

Superstructure

Boom

11,0 m to 51,0 m (36 ft - 167 ft) six section TWIN-LOCK™ boom. Maximum tip height 54,0 m (177 ft).

Boom elevation

One cylinder with safety valve, boom angle from -3,0° to +82°.

Load moment and independent anti-two block system

Load moment and independent anti-two block system with audio visual warning and control lever lock-out. These systems provide graphic display of boom angle, length, radius, tip height, relative load moment, maximum permissible load, load indication and warning of impending two-block condition with lock-out hoist function.

Cab

Aluminium, full vision, tilting (approx. 20°), safety glass, adjustable operator's seat with suspension (optional), engine-independent heater. Armrest integrated crane controls. Ergonomically arranged instrumentation and crane operating controls.

Slewing

Two slewing gears with axial piston motors, planetary gears, automatic break.

Counterweight

14,8 t (16.3 USt), consisting of various sections (14,8 t [16.3 USt]) within 2,55 m [8.4 ft] vehicle width). Hydraulic removal system.

Hydraulic system

Two separate circuits, 1 axial piston variable displacement pump with electronic power limiting control and 1 axial piston variable displacement pump for slewing.

Thermostatically controlled oil cooler. Tank capacity: 450 l (119 gallon).

Control system

Full electronic control of all crane movements using electrical control levers with automatic reset to zero. Integrated with the RCL and engine management system by CAN-BUS. Crane Control System (CCS) with system with graphic display.

Hoist

Axial piston motor with planetary gear and brake. Drum rotation indicator. IR - Hoist camera with light.

* Optional equipment

- Bi-fold swingaway, 8,7 m (28.5 ft)/15 m (49 ft) with hydraulic offset and luffing under load (0°-40°), controlled from the crane cab.
- Bi-fold swingaway, 8,7 m (28.5 ft)/15 m (49 ft) (manual offset 0°, 20°, 40°).
- Lattice extension, 21 m (69 ft)- includes 6 m (19.7 ft) fixed non-offsettable section plus 8,7 m (28.5 ft)/15 m (49 ft) swingaway (see above).
- Auxiliary hoist

Carrier

Chassis

Special 4-axle chassis, all-welded torsion-resistant box type construction in high strength steel.

Outriggers

4 double hydraulically telescoping beams with vertical cylinders and outrigger pads. Independent horizontal and vertical movement control on each side of the carrier and from the operators cab. Electronic level indicator with automatic levelling system.

Engine

Mercedes Benz OM470LA, diesel, 6 cylinders, water cooled, turbocharged, 320 kW (430 hp) at 1700 rpm (80/1269 EWG fan loose). Max. torque: 2100 Nm at 1300 rpm. Fuel tank: 200 l + 200 l (52.8 gal + 52.8 gal)

Engine emission: Euromot 4 / EPA / CARB Tier 4 final (non road) - optional Euromot 3a / EPA / CARB Tier 3 (non road).

Transmission

Mercedes G 280-16 gears forward and 2 reverse. 2-stage transfer case with longitudinal differential lock.

Drive/Steer

8 x 6 x 8.

Axle lines

4 axle lines, axle lines 1, 2, 3 and 4 steered, axle line 1, 3 and 4 driven.

Suspension

MEGATRAK®. All wheels with independent hydropneumatic suspension and hydraulic lockout. Longitudinal and transverse level control with automatic on highway levelling system. Range +170 mm/-126 mm (+6.7 in / -5.1 in). Active suspension control on outrigger control units.

Tires

Eight tires, 385/95 R25 (14.00 R25).

Steering

Dual circuit, hydraulic power assisted steering with emergency steering pump. Axle lines 1, 2 and 4 steer on highway. Separate electronic hydraulic (steer by wire) steering of the 3rd, and 4th axle line for all wheel steering and crabbing.

Brakes

Service brake: pneumatic dual circuit drum brakes acting on all wheels, air dryer. Permanent brake: exhaust brake and constant throttle brake. Parking brake: pneumatically operated spring-loaded brake acting on axle lines 2, 3 and 4.

Driver's Cab

2-mandesign, safety glass, driver seat with pneumatic suspension, engine-independent diesel air heater incl. 24 h timer. Complete instrumentation and driving controls. Air condition. 12 V plug. Two rotating beacons. Fire extinguisher.

Electrical system

Three-phase alternator 28 V/150A, 2 batteries 12 V/180 Ah. Lighting system and signals 24 V.

* Optional equipment

- 8 x 8 x 8
- Eight tires, size 445/95 R25 (16.00 R25) - Vehicle width 2,75 m (9.02 ft).
- Eight tires, size 525/80 R25 (20.5 R25) - Vehicle width 2,88 m (9.5 ft).
- Folding bunk bed in carrier cab.
- Secondary water retarder.
- Reverse camera system.

**Denotes optional equipment.*
